Why Study Russian?

Russian is the most widespread language across Eurasia, and it is the most popular of all Slavic languages with over 260 million speakers. Russian is considered the international language of space, and learning Russian is part of cosmonaut training! Some of the most enduring literature comes from Russian authors such as Dostoyevsky, Tolstoy, and Chekov. Russian is an important language in the study of international relations and history.

At MIT, are you considering a MISTI internship in Russia or Kazakhstan? Coursework in Russian language and culture is strongly recommended.
